

CALL FOR PAPERS

CWA 2010 CONFERENCE

The Canadian Welding Association is hosting an Annual Conference on
September 26th-27th, 2010

Welding Technology

We are inviting paper submissions from diverse welding industry cross sectors which will be presented in 30-minute time slots. Topics could include welding research, new welding technologies weld repair and failure analysis, weld inspections, welding productivity/lean manufacturing and welding safety.

Education

We are also asking those involved in the education sector to submit papers on welding education trends, program developments, apprenticeships training/metal fabrication and future developments.

Critical Dates

February 26th:	Abstracts Submission
April 30th:	Notification of acceptance
June 30th:	Full paper submission

All papers must be submitted in a Word document with the following criteria:

- Text must be in Arial font 11-point size
- Must Not exceed 15 pages
- Illustrations must be embedded in the text
- 1.5 spacing

Please also include your name, job title, company name and contact information.

Send your documents by email to: info@cwa-accs.org, or upload your submission to our website at www.cwa-accs.org.

We look forward to your contributions and appreciate your participation.
