Newsletter: vacant

Publicity: vacant

Social: vacant

Member at Large: vacant

Abstract: CSA Standard W47.1-2009 was released in November 2009, and introduced for Certified Companies relating to both welder and procedure testing. This presentation will give an overview of the major changes in the document and how these changes will positively impact the industry. The presentation will also provide information on what certified Companies need to do to transition from the 2003 edition to the new 2009 edition. CWB certified Companies, Welders, Welding Supervisors, Welding Inspectors and Welding Engineers will all benefit from this presentation.

Speaker: Darcy Yantz, CWB Western Operations Supervisor

Darcy is a certified Level III welding inspector, a RAB certified lead auditor with many years experience in quality assurance, non destructive weld examination, project management and practical industry experience as a journeyman welder and journeyman steel fabricator.

Currently involved as a technical committee voting member with various code and standard committees such as; the Z662 Construction SC for Canadian Pipelines, AWS D1.3 Structural Sheet Steel subcommittee, (Chair) AWS D1.6 Structural Stainless Steel subcommittee, AWS D1.1 Inspection and Qualification subcommittees. Darcy is also a member of provincial Building Official Associations, the Saskatchewan Steel Fabricators and Erectors Association (SSFEA), the Canadian Institute of Steel Construction (CISC) Central, Alberta and BC regions and has previous CWA Executive experience with the Winnipeg and Edmonton Chapters.
