by leaving a message with  
Victor Andrisani, CWB,  
905-826-5133 ex 322  
by Monday afternoon,  
April 11, 2005*

## Student Night

**Presentations from the University of Waterloo,  
Northern College and Conestoga College**

A highlight of the year. Students from each college and university will make presentations on welding related topics or research.

### Welding Boiler Tubes Using Plasma Arc Welding

*Mr. Patrick McBurnie, Conestoga College*

Application of Plasma Arc Welding for the repair and build-up of boiler tubes for a coal-fired boiler. The tubes have been subjected to erosion wear and are too thin to repair weld with conventional GTAW techniques. The project will include details of a welding procedure qualification as per ASME Section IX.

### Resistance Spot Weld of Zinc Coated Steel TiC Coated Electrodes

*Mr. Kevin Chan, University of Waterloo*

### Effect of Contact Tube to Work Distance on GMAW Northern College

### *The Chair's Message:* Eye-Opening Success

Once again the Try the Technology Night was a huge success. Presented by the Toronto and Golden Triangle Chapters, this workshop just keeps getting better.

It was a great opportunity to learn, feel and try new products that were just introduced to the market. We

thank Lincoln, Hobart, Miller, ESAB Hypertherm, Thermadyne, SCN and Harris for their great demonstrations and encourage all CWA members to explore their state of the art equipment. Also a huge thank you to Conestoga College for allowing us to use their facilities. Make sure you join us for this special event next year.

### New CWA 2005 DIRECTORY Launch in April!

The new CWA-Toronto Chapter, 2005 Directory will be available the early part of April. We want and need your feedback to improve the directory for the next year. Send us an email or mail us a note.

### Western Board of Directors Meeting

The Board of Directors of the CWA will meet in Richmond, BC, on Saturday, April 30. Membership will be the top priority on the agenda. Contact the Chapter Chair with suggestions for agenda items or concerns.

**Next Event  
May 10, 2005**

### Auto Night Tour

Take a tour of the Legendary Motorcar Company

**For information call**
